Re: ~~Rhone-Poulenc Ag Company, Institute Plant~~
EPA Identification Number: WVD005005509

Dear Mr. Boggs:

This is in response to your letter of February 15, 1989 regarding the request for an extension to the ninety (90) day storage period for the Aldicarb contaminated waste (Hazardous Waste Code P070) held at the referenced facility.

The Division of Waste Management of the Department of Natural Resources, hereby grants the approval of a thirty (30) day extension to the (90) day storage period.

This approval is granted in accordance with the West Virginia Hazardous Waste Management Regulations (HWMR), Section 6.3.5.b with the requirement that this tank must continue to be managed in accordance with 40 CFR Part 265, Subpart I and 6.3.5.a of the HWMR till they are properly removed off site.

This extension shall terminate on March 16, 1989 at which time the waste in the tank must be removed in accordance with all applicable State and Federal Regulations.

Should you have any questions or need any assistance, please feel free to contact Riad Tannir at the above telephone number.

Sincerely,

B. Douglas Steele

Re: WV0000086, Part I-B, Schedule of Compliance

Dear Mr. Harbold:

As required in the above referenced permit, we are submitting herewith the first progress report on the compliance schedule.

Item No. 1

Install new hydrogen chloride absorber, No. 2 MIC Unit.

Status: Installation completed and absorber in service by November 24, 1982. Equipment is performing reliably and as expected.

Item No. 2

Replace Dioctyl Phthalate (DOP) in all plant pump seals, using a non-hazardous replacement.

Status: No action scheduled until Third Quarter of 1983.

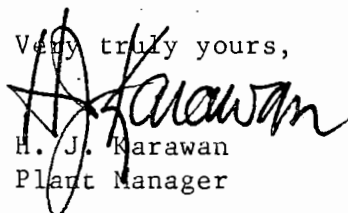

Item No. 3

Reorganization and up-grading of Environmental Protection Laboratory.

Status: New laboratory completed and in full operation by April 1, 1983.

We apologize for missing the June 1, 1983 due-date for this progress report. There was some confusion on this matter pending issuance of the amended permit, which was not received until June 3, 1983.

Very truly yours,

H. J. Karawan
Plant Manager
